

PORT NOTICE – TO WHOM IT MAY CONCERN

SUBJECT: Berth specifications of Port of Gävle

DATUM: January 17, 2018

Port of Gävle would like to inform where to find current berth specifications stated by Port of Gävle as well as temporary restrictions of Gävle Pilot Area, Swedish Maritime Administration.

Port of Gävle berth specifications can be found on:

- www.gavlehamn.se
- Operating Instructions of Gävle Energy Port:
<http://gavlehamn.se/Content/98073/Operating-instructions-Rev-1-7.pdf>

Temporary restrictions of Gävle Pilot Area can be found on:

- <http://www.sjofartsverket.se/sv/Sjofart/Lotsning/Lotsomraden/Lotsomrade-Gavle/Riktvarde--restriktioner/>

(See word doc Gävle , Dated 171227)

TO BE NOTED

Until a change of the fairway is established or other measure has been carried out, the maximum permitted vessel draft will be 9.8 meters for the berths 17-19. The water depth refers to the current sea chart 5342.

Manager of Gävle Pilot Area has stated temporary restrictions for vessels approaching Jetty No. 1. The maximum length over all is for the moment 165 meters and maximum breadth 24 meters. Port of Gävle has initiated a simulation of vessel approach to Jetty No. 1 in order to investigate and establish the maximum vessel length over all of Jetty No. 1.

INFORMATION

If the particulars of a vessel deviate from the current berth specifications or temporary restrictions stated by Gävle Pilot Area there is still a possibility of letting the ship arrive / depart. An application of exemption must be submitted to Port of Gävle in good time before the current arrival / departure.

The application of exemption, (Vessel acceptance application) can be found on the website of Port of Gävle on the link: <http://gavlehamn.se/hamnordning-och-hamnregler>

Med vänliga hälsningar,

Linda Astner
Manager Port Authority, Gävle Hamn AB
