1 Tariff terms and conditions

Fees and invoicing

- §1 Port fees for vessels are calculated in Swedish crowns (SEK) per unit of gross tonnage (GT), in accordance with the 1969 International Convention on Tonnage Measurement of Ships. For vessels that call at the Port of Gävle for the first time, or vessels that have been re-built since their last visit, a valid International Convention of Tonnage Measurement of Ships 1969 must be presented by the shipping company or its representative, in accordance with the 1969 measurement regulations.
- §2 Port of Gävle (Gävle Hamn AB) reserves the right to define the type of vessel.
- §3 Prices below are stated in SEK and are applied for complete port calls, i.e. for arrival into and departure from the port area.
- §4 Amounts invoiced must be paid to Port of Gävle no later than 30 days after the invoice date. Interest will be charged for payments that are not received by Port of Gävle by the payment due date, in accordance with the details stated on the invoice.
- §5 Should the Swedish Government decree that special pricing rules are applicable to certain types of vessels, these regulations will apply.

Environmental discounts

- §6 Environmental discounts will be given provided that the vessel is registered in accordance with the provisions of the ESI (www.environmentalshipindex.org) or CSI (www.cleanshippingindex.com). In order for the discount to be given, information of registration and fulfillment of the approved level must have been announced in the Maritime Single Window (MSW) in connection with the vessels forthcoming call at the Port of Gävle. The information shall be provided in MSW under the heading "Additional information".

Sludge and solid vessel-generated waste, etc

- §7 Delivery of sludge must be ordered no later than 24 hours prior to vessels arrival by e-mail to trafik@gavlehamn.se. Non-cancelled deliveries will be invoiced.
- §8 A surcharge will be applied for additional costs incurred by Port of Gävle or its sub-contractors due to:
- "Notification of delivery of vessel waste" not submitted in time, as required by Swedish law and Port of Gävle's regulations, or differs significantly from the actual load.
 - Waste/sludge contains unknown substances, solvents or detergents.
 - Waste has not been generated as part of the normal operations of the vessel.
 - Containers or packages containing oil residue or hazardous waste are incorrectly packaged or contents are incorrectly marked, or delivery or placement does not occur in designated areas.
 - Delivery does not take place at the agreed time.
 - The vessel does not provide personnel for delivery of sludge.
 - The pump capacity for sludge is less than 5 m³ per hour.

Disputes related to tariffs

- §9 In case of disputes over interpretation of the port tariffs, the latest published Swedish version of the tariffs will apply. Disputes related to port tariffs will be settled by Gävle District Court.

Revisions to port tariffs

- §10 Port of Gävle reserves the right to revise the port tariffs during the course of the year.

2 Port fees for vessels

Port fees for vessels are charged each time a vessel call at the Port of Gävle, unless otherwise stated.

2.1 Standard fees by type of vessel

Break bulk (LoLo vessels)	SEK 4.10/GT
Container vessels	SEK 2.54/GT
Tankers 0-15 000 GT	SEK 4.10/GT
Tankers 15 001-20 000 GT	SEK 4.41/GT
Tankers > 20 001 GT	SEK 4.82/GT
RoRo vessels, quay 15, 1-2 port calls/week	SEK 1.64/GT
RoRo vessels, quay 15, > 2 port calls/week	SEK 1.43/GT

Ice surcharge 1st December to 30th April **+100 %** (per the above fee)

2.2 Vessels to Karskärs quays

All vessel types **SEK 3.60/GT**

Ice surcharge 1st December to 30th April **+100 %** (per the above fee)

2.3 Vessel-at-quay fee

Per metre of vessel LOA, per day **SEK 51/METRE**

A vessel-at-quay fee is charged for vessels that:

- dock at port earlier than usually required to start unloading/loading
- upon completion of unloading or loading, remain in the quay for a longer time than usually required for sea preparations and other routine preparations

2.4 Exemptions from vessel fees

Vessels that belong to the state of Sweden, tugs towing barges that are subject to port fees and vessels that make emergency calls to port are exempt from port fees.

The time limit for exemption is one day for state-owned vessels and for tugs. For emergency port calls the time limit is three days. Full port fees are charged thereafter, and a vessel-at-quay fee is charged after an additional three days.

3 Environmental discounts

Vessels that have a minimum of 30 points according to ESI, or have at least 4 stars according to CSI, receive a 10 % discount on the port fee, based on their GT.

Vessels that use LNG for fuel during the port call receive a 20 % discount on the port fee, based on their GT.

4 Fees for vessel-generated waste

4.1 Sludge, oily slop and solid waste

Port of Gävle charges a fee for receiving waste from vessels (environmental surcharge) in accordance with Swedish regulations and the EU directive 2000/59/EG. The fee covers the cost of normal levels of waste (sludge and oily slop as well as solid waste). Port of Gävle reserves the right to charge an additional fee for extra costs incurred that exceed the normal level.

Standard fee	SEK 0.83/GT
Vessels to Karskärs quays	SEK 0.73/GT
Container vessels	SEK 0.15/GT

4.2 Scrubber waste

Scrubber waste left in the port is charged at actual cost, plus an administrative fee.

5 Cargo port fees

5.1 Cargo fees per type of cargo

A cargo fee is charged in the below amounts for goods that are handled in quays 1 and 27, and also outside of the Yilport Gävle concessions areas in the Port of Gävle. The cargo fee is also charged for goods that are not handled over quay (goods not-over-quay).

The fee is charged once only, either when the cargo arrives or departs. The port cargo notification must be received no later than five working days after the goods have been completely unloaded/loaded.

The fee is calculated in SEK per the nearest metric ton (MT)

Diesel, kerosene, fuel oil, tall oil	SEK 15.69/MT
Petrol, ethanol	SEK 22.40/MT
Sodium hydroxide	SEK 11.80/MT
Sulphuric acid	SEK 12.43/MT
Lubricants	SEK 22.40/MT
Slurry	SEK 8.77/MT
Various chemical products	SEK 14.04/MT
Waste oil, not through pipeline and other liquid rest products	SEK 9.55/MT
Metal scrap and other goods not-over-quay	SEK 8.59/MT

5.2 Exemptions from cargo port fees

Supplies and provisions for the ship's own needs are exempt from fees.

6 Rail track fees

Assigned ad-hoc capacity per shunting	SEK 2 050/shunting

7 Weighbridge

Electronic weighbridges for vehicles are unmanned and open 24 hours a day. Contact Port of Gävle for access to a weighbridge, or for electronic weighing information. Calibration is carried out annually in accordance with OIML class III standards.

Capacity 70 MT, max vehicle length 24 metres, margin of error +/- 15 kg

Price (including one in and one out weighing)	SEK 113
Set-up fee	SEK 2 050

8 Tug services

The following prices apply for Port of Gävle's tugboat Grizzly.

8.1 Assistance to or from the quay

Grizzly tug, per mission **SEK 1.74/GT**

8.2 Safety boat through Holmuddsrännan

Grizzly tug and mission **SEK 28 000/occasion**

8.3 Waiting time

Grizzly tug **SEK 9 200/hour**

Waiting time is charged for every initiated half hour, regardless of the tug's location (at quay, at anchor or by the vessel).

8.4 Terms and conditions for tug services

The need of tug services must be notified to Port of Gävle minimum 24 hours prior to vessels arrival respectively departure. Port of Gävle may allow a shorter notification time if special circumstances can be considered to exist. The notification should be sent by e-mail to trafik@gavlehamn.se and tug@gavlehamn.se.

A final order of tug must be made minimum 5 hours prior to vessels arrival respectively departure. This must be done by telephone call to the tug via telephone number +46 (0)26 17 88 38. In case it is not possible to get in touch with the telephone on the tug, instead contact the Port Traffic Office via telephone number +46 (0)26 17 88 66 (round-the-clock).

Cancellation of services after the tug has left the quay is charged at 70 % of the rate.

All tug assignments are carried out in accordance with the 1985 Scandinavian Tug owner's standard conditions.
