

PORT NOTICE

SUBJECT: Construction of the new jetty #1
DATE: January 20th, 2022

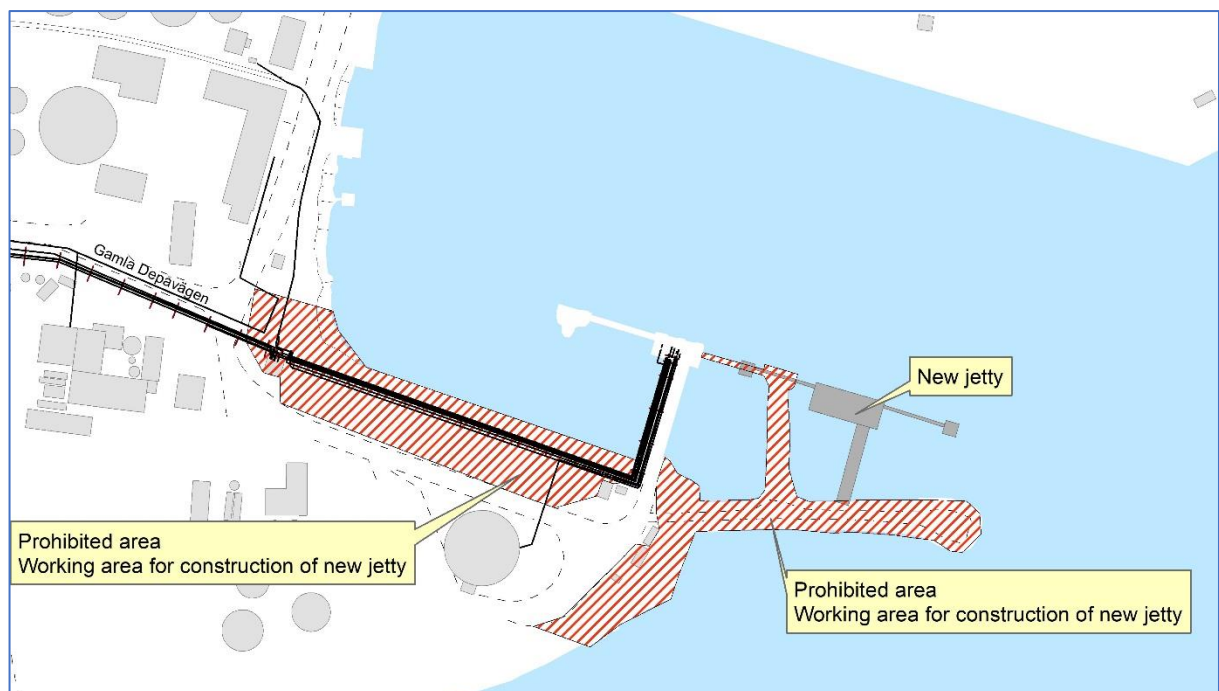

Port of Gävle (Gävle Hamn AB) is hereby bringing to the attention of all concerned regarding some restrictions in connection with the construction of the new jetty #1.

Port of Gävle has started the project with construction of a new jetty, that will replace the existing jetty #1. The physical work will start in the end of January 2022 and will be completed in October 2023. During this period there will be some restrictions regarding entering certain areas and in some period compulsory use of tugboat assistance for safety reasons. The compulsory use of tug will be specified further on.

It may also be necessary in some cases that vessels will have to wait on arrival since some works cannot be interrupted at short notice or that they must be completed before a vessel can be moored. Port of Gävle will of course do the utmost to avoid waiting time for vessels.

PROHIBITED AREA, WORKING AREA FOR CONSTRUCTION OF NEW JETTY

The prohibited area is marked in the picture below. To enter this area, you need permission from the Port of Gävle/Port Authority.

For additional information please contact Port of Gävle.

Best regards

Niklas Hermansson
